attache case secret recorder

Here is the ultimate in secret recording devices. Doubles as a portable tape recorder and dictating-transcribing machine!

NO. ASC-10 Attache Case with built-in microphone, connector plug, start-stop switch (but without TR 711 Recorder for those who already own one.)
\$79.95

NO. ASC-12 Attache Case, as above, including TR 711 Recorder, reel of tape, take-up reel, hand microphone, stethoscope earphones, and batteries
\$264.95 Plus F.E.T.

RECORDS CLEARLY WITH CASE SHUT — IN VERTICAL OR HORIZONTAL POSITION

Looks like an innocent attache case, but contains hidden built-in extremely sensitive microphone, connector plug to secret compartment for TR 711 tape recorder (described below), and instantaneous hidden stop-start switch.

Button-down **WRITING DESK PAD** conceals tape recorder even if case is opened. Pocket file in lid, for legal size papers. Genuine cow-hide leather. Brass hardware and locks. Soundproofed for clear, noiseless recording, up to 20 ft.

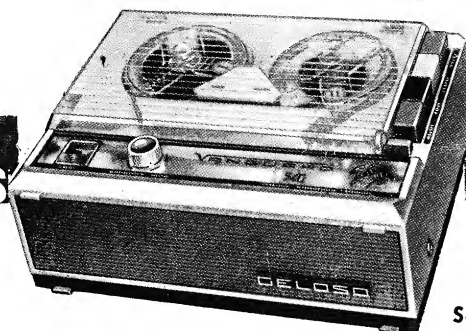

FAMOUS AMERICAN GELOSO TR 711 StenOtape RECORDER

Portable, battery-powered, transistorized. Hand-control microphone, up to 2 hrs. recording. Can be removed from "Attache Case", and used independently for recording, dictating, transcribing!

New
Transistorized

Geloso Sten-O-Tape G 540

WORKS ON BATTERIES

STENOTAPE MODEL 711
4 Lbs. 2" x 6" x 7"

Why three-quarters of a million
STENOTAPE
 dictating-transcribing machines are now in use!

BECAUSE they are • Completely dependable • Portable • Convenient to use • Versatile (dictating, transcribing, conferences, interviews, lectures, phone recordings) • Perfectly compatible (same re-usable magnetic tapes as other standard machines)

Three StenOtape Models meet every need!

MODEL 711 (pictured above) Operates **anywhere** on standard penlight batteries obtainable anywhere, also on AC. 2 hour capacity. Price, including hand "mike", earphones, tape, and attache-carry case

MODEL 256—Our standard AC office machine. 2 hr. capacity.

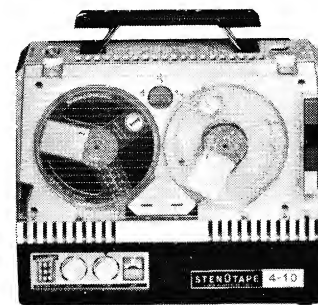

MODEL 310—Voice-controlled AC. 3 speeds. 10 hr. capacity.

IF YOUR CUSTOMERS ARE CRAZY ENOUGH

TO DICTATE 10 HOURS AT A STRETCH, THIS NEW MACHINE CAN TAKE IT, AND ON A SINGLE REEL!

ALL-TRANSISTOR STENOTAPE 4-10

OTHER NON-COMPARABLE SALES FEATURES OF THIS MOST CAPABLE OF ALL DICTATING, TRANSCRIBING AND CONFERENCE MACHINES:

- Frequency response: 40 to 12,000 cycles
- 3 speeds (15/16, 1 7/8, 3 3/4)
- Numerical counter for pinpoint reviewing
- Remote hand-control mike
- Completely compatible with battery-operated StenOtape 711, and other standard machines
- A host of useful accessories

F856

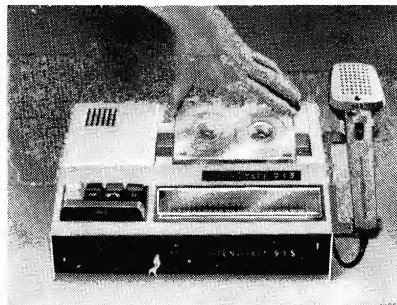

**This is a
better
dictating
machine.**

**It's also a
better
transcribing
machine.**

It's completely transistorized. Only \$249.95

**It's the
STENOTAPE 915
CARTROMATIC**

Instant, Automatic Loading

**Dictating and transcribing now becomes
easier — more convenient than ever before.**

The StenOtape 915 has all the advantages of a magnetic tape machine plus solid state circuitry — greater fidelity, modern styling, endlessly reusable cartridge, etc.—with none of the usual problems. For example, no longer do you have to thread or loop the tape, or mess with levers that may jam.

Here you get **instant, automatic loading**. The tape is enclosed within the cartridge. Just drop it in place, press a button on the microphone and dictate.

Dictating is more convenient — all the necessary controls are on the microphone. Backspacing for instant review and for correcting errors or rephrasing of sentences.

Transcribing is easier and more accurate. Your secretary will appreciate this — and you'll get more error-free dictation.

And — with the CARTROMATIC, you can record conferences, interviews, telephone conversations. There are two speakers, one in the microphone for personal review and one in the unit itself for conference use . . . fast erase . . .

fast forward . . . warning buzzers at end of cartridge . . . automatic voice levelling . . . greater clarity of voice for your secretary . . . and so many more features.

Want to get more information? Try one yourself? Just use the coupon.

"GELOSO" STENOTAPE 4-10

PORTABLE TAPE DICTATING, TRANSCRIBING, CONFERENCE MACHINE.
10 HOURS OF OPERATION ON 1 PATENTED SELF LOADING REEL.

The first dictating and transcribing machine that is truly an outgrowth of modern space age technology. 5 Silicone Transistors and 9 Diodes have been incorporated in this StenOtape for stability and superior performance. Handsomely designed for function, durability and eye appeal — fits in perfectly with any office or home decor.

Versatile machine for office use, professional recording, sales training, audio visual presentation, language labs, inventory taking and personal entertainment. Records music with concert hall realism. Compatible with all StenOtapes as well as standard make recorders.

Used by all types of commercial business, professional people, public speakers, stock brokers, federal, state and municipal government agencies.

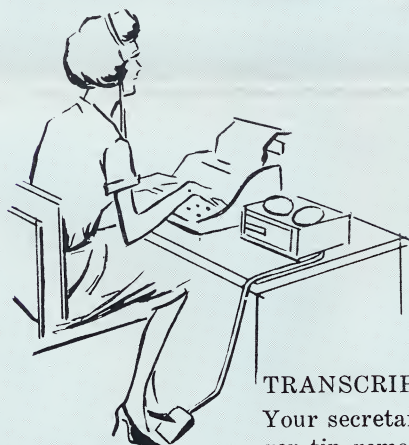

"FULLY TRANSISTORIZED"

RV 4-10: This new and additional model is available with full controls (Back space to play, Stop, Start) on microphone at \$279.95

DICTATION

Simply use the T-25 remote control microphone and every word you dictate and every inflection of your voice will be precisely reproduced.

TRANSCRIPTION

Your secretary has the choice of finger tip remote control or foot/pedal control but, either way, she will hear your every word with unusual clarity that only the Geloso StenOtape 4-10 can give.

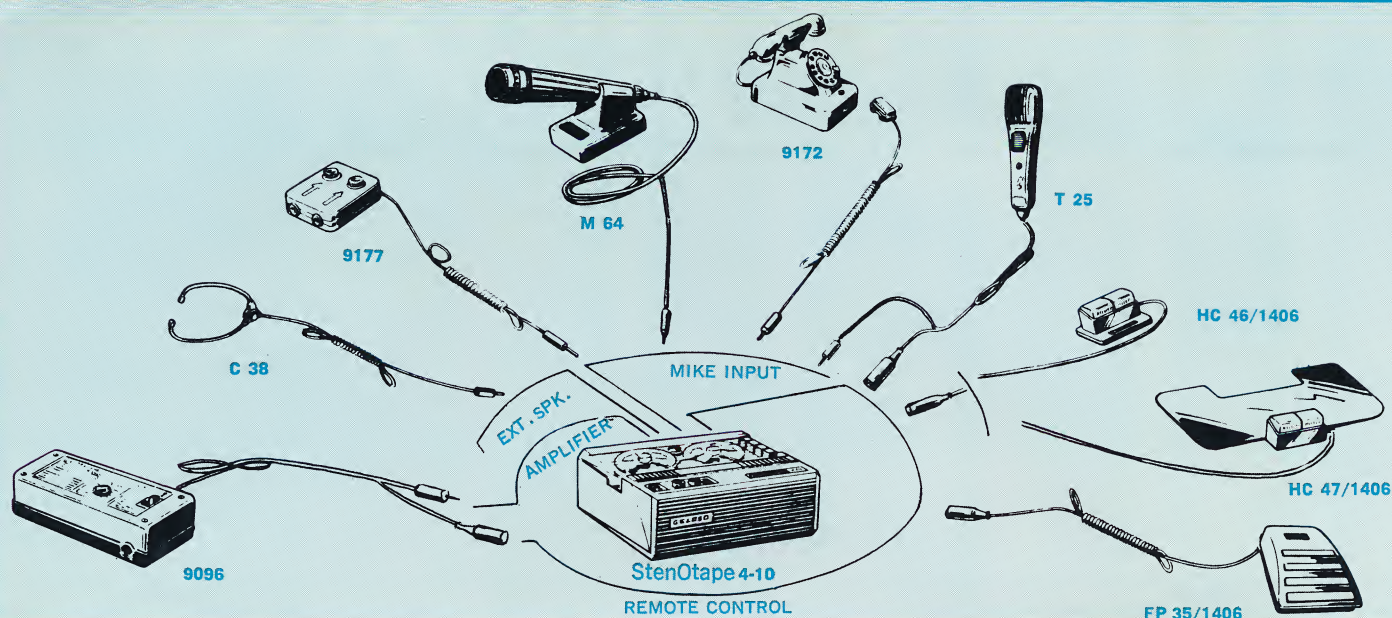

CONFERENCE

4-10 is ideal for conferences because of its long play and sensitivity—will pick up sound 30 ft. away. StenOtape will start and stop automatically along with the speaker, by use of the 9096 Automatic Voice Control.

Over 650,000 STENOTAPES in use all over the world!

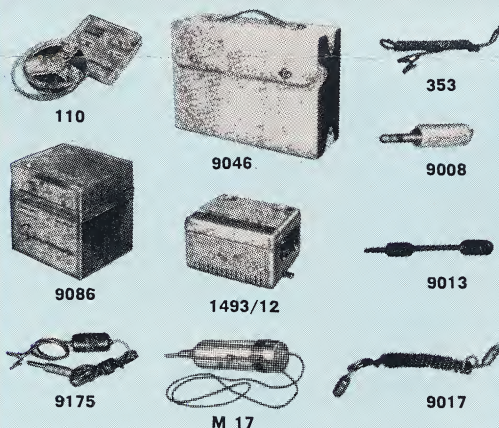

FEATURES

- High Grade Silicon transistors
- Guaranteed trouble-free electronic system.
- 10 Hours of operating time.
- 3 speeds—15/16, 17/8, 3 3/4 I. P. S.
- Outputs: Monitoring, earphone, external speaker, amplifier, etc.
- Inputs: Remote control, microphone, telephone pick-up, radio, etc.
- Shock proof case
- Digital counter, spot reference
- Built in handle for portability
- V. U. Meter
- Compatible with all standard recorders
- Exclusive Geloso Patented self loading reels.
- Frequency Response 40 ÷ 12,000 cyl at 3 3/4 I. P. S.
- Signal to noise Ratio = better than 50 db.
- Wow and Flutter = Less than .2%
- Erase = -58 db.
- Power Output = 2.5 Watts
- Special Hi Fi built in speaker
- 5-Transistors—High Grade Silicon
- 9-Diodes
- AC Bias = 75Kc.
- Output Impedance = 6 Ohm
- Power Consumption = 32 Watts
- Power requirements = 117v, 60 cyl. AC only.
- Dimensions = 5" x 12" x 11"
- Weight = 12 lbs.

StenOtape 4-10

Complete with Geloso #T-25 Remote Control Hand Microphone—Geloso patented 5" self loading reel with tape and one self loading empty reel. Consumer Net. \$269.95 plus F.E.T.

NOW YOU CAN OWN 3 BUSINESS MACHINES FOR THE PRICE OF 1

GELOSO STENOTAPE G-3/10

3 Speed / 10 Hour Dictation with Remote Dictation or Transcription Controls

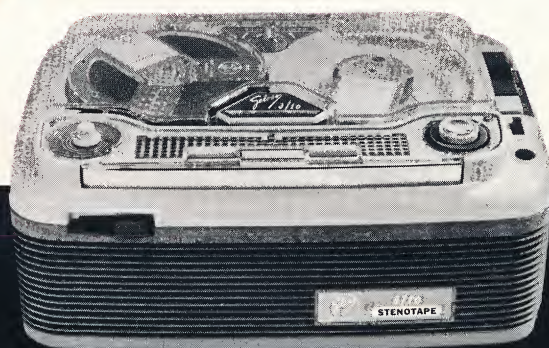

The advanced electronic design makes this a 3-way dictation or conference recorder at 15/16 I.P.S. (inches per second), standard office unit at 1 7/8 I.P.S., and hi-fi tape recorder at 3 3/4 I.P.S. Weighs only 13 lbs.

A compact and versatile machine for *dictation-transcription*, correspondence, conference, meetings, sales training, audio visual presentation, radio or TV stations for monitoring or recording complete programs, post-graduate digests, language labs, inventory taking, and personal entertainment.

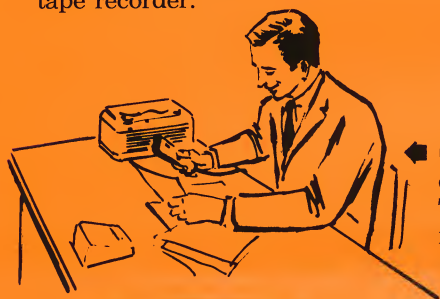

The following are just a few of the users of the Geloso G-3/10 StenOtape *dictation-transcription* machine: large or small business, grade schools, business schools, colleges, accountants, insurance adjusters, hospitals, authors, clergymen, stock brokers, banks, supermarkets (for playing ten-hour background music), engineers, doctors, lawyers, professionals, public speakers, federal, state and municipal government agencies, etc.

So sensitive, the G-3/10 StenOtape picks up sound 30 feet away—records music with concert hall realism, compatible with all StenOtapes as well as standard make recorders.

Here at last is the ultimate in a compact ten-hour high fidelity *dictation-transcription* machine and tape recorder.

The G-3/10 StenOtape is both a dictation and transcription machine but is available either with hand microphone for dictation or with remote foot pedal or hand controls and earphone for precise transcription.

➤ **G-3/10 StenOtape with remote control hand microphone No. T-27 for dictation, self-loading reel of tape and take-up reel. List Price \$249.95 plus F.E.T.**

⬆ **G-3/10-45 StenOtape with HC-45 typewriter bar control and C-39 earphone. List Price \$249.95 plus F.E.T.**

➤ **G-3/10-35 StenOtape with FP-35 foot pedal for start, stop and backspace, and C-39 earphone. List Price \$249.95 plus F.E.T.**
